WORK EXPERIENCE

Jul 2024 — Present

Backend Developer, Fupico

I volunteer in the development of an open-source task tracking application using **ASP.NET** Core and related technologies, including **Entity Framework** and **LINQ**. I am involved in implementing features such as data modeling, database interactions, and backend logic to enhance the application's functionality

Jun 2024 — Present

Backend Developer, Orthero Aligner

I contribute to the development of a large-scale healthcare project using **.NET Core**, **Entity Framework**, **MS SQL**, **Automapper** and **Fluent Validation**. I am involved in enhancing areas such as **API** development and data processing tasks.

Feb 2024 — May 2024

Backend Developer, OROOX

I contribute to the development of a large-scale project using **C#** and **.NET Core** technologies, along with tools such as **Entity Framework, AutoMapper**, and **Fluent API**. I am involved in enhancing areas such as e-commerce and admin panels.

Jul 2023 — Feb 2024

Information Security Specialist, QITTPRO

I had the chance to improve my skills in the field of information security. Alongside my team, we carried out processes such as risk analysis and management under ISO 27001 in various government agencies and private companies. We also worked together on creating necessary policies, developing business continuity plans, and tightening system security.

Aug 2021 — Dec 2022

Cyber Security Intership, BTS Group

During my Cyber Security Internship, I gained experience not only in cyber security, but also in system and network management, as well as software development. Specifically, I focused on tasks such as penetration testing, internal security, and log analysis in cyber security. Additionally, I participated in system and network installations, and also contributed to the support team.

- I took part in **ELK Stack** installation and management
- I took a role in the field of **log analysis**
- I worked on switch and **firewall configurations** for various customers

---

EDUCATION

2024 — Present

Web Design and Coding, Anadolu University

2021 — 2024

Management Information System, Anadolu University

Overall GPA: **2.96/4.0**

2019 — 2021

Computer Programming, Mehmet Akif Ersoy University

It has been completed with a degree. Overall GPA: 3.51/4.0

SKILLS

.NetCore	Skillful	React	Beginner
EntityFramework	Skillful	Linux	Skillful
Fluent Validation	Skillful	Docker	Skillful
N Tier Architecture	Skillful	Python	Skillful
Repository Design Pattern	Skillful	AutoMapper	Beginner
SQL	Skillful	Autofac	Beginner

COURSES

2023	Information Security Management and Governance, Bogazici-University
2022	Version Controls: Git and GitHub, BTK AKADEMI
2021	Ila-sy-rh-1011 Linux Basic Education, Istanbul Technical-University
2020	Cisco Certified Network Associate Routing & Switching Essentials 1-2-3, Cisco
2021	Cisco Cyber security Operation Center Associate, Cisco
2022	Python Programming Language in Business Life, LKD
2023	Log Management and Analysis with Graylog, LKD

LANGUAGES

| Turkish | Native speaker | English | B2 |
