SUMMARY

I am a backend-focused software developer with hands-on experience in building scalable and sustainable systems. At Nexum, I contributed to the .NET 9.0 migration of Pegasus Airlines' web platform, applying modern architectures in a real-world setting. I also developed a full-stack blood donation matching platform using ASP.NET Core (**Back End**) and React with TypeScript (**Front End**). I'm now looking to bring my technical expertise and project experience into new challenges where I can continue to grow and make meaningful contributions to impactful products.

WORK EXPERIENCE

Jan 2025 — Present

Software Developer , Nexum

As a backend developer at Nexum, I am actively involved in the development of the corporate website of Pegasus Airlines, **flypgs.com**. Initially built with **ASP.NET Core 7.0**, the project underwent a comprehensive architectural refactoring and was successfully migrated to **ASP.NET Core 9.0**, a process in which I played a key role.

I develop scalable, secure, and high-performance backend services by applying modern architectural patterns such as **Onion Architecture**, **Mediator Pattern**, **Unit of Work**, and **Aspect-Oriented Programming**. I work extensively with technologies including **Redis**, **Hangfire**, **AutoMapper**, **Entity Framework Core**, **Dapper**, **Serilog**, **Fluent Validation**, **Docker**, and **Microsoft SQL Server**.

Within **Agile-managed sprint processes**, I have contributed to both the core system and the CMS infrastructure with various backend enhancements.

Highlighted Contribution: I developed the backend (CMS and WebUI) of the following page:

- [Airports Online Check-in Availability](#)

Jun 2024 — Sep 2024

Software Developer, Orthero Aligner

I contribute to the development of a large-scale healthcare project utilizing **ASP.NET Core**, **Entity Framework**, **MS SQL**, **AutoMapper**, and **Fluent Validation**. My responsibilities include enhancing API development and managing complex data processing tasks.

Feb 2024 — May 2024

Software Developer Intern, OROOX

I contribute to the development of a large-scale project using **ASP.NET Core** technologies, including **Entity Framework**, **AutoMapper**, **JWT** and **Fluent API**. My work involves enhancing features related to e-commerce platforms and administrative panels.

Jul 2023 — Feb 2024

Information Security Specialist, QITTPRO

I had the opportunity to enhance my skills in information security by collaborating with my team on **risk analysis and management** processes aligned with **ISO 27001** standards across various government agencies and private organizations. Additionally, we jointly developed essential policies, business continuity plans, and implemented measures to strengthen system security.

Aug 2021 — Dec 2022

Cyber Security Internship, BTS Group

During my Cyber Security Internship, I gained experience not only in cyber security, but also in system and network management, as well as software development. Specifically, I focused on tasks such as penetration testing, internal security, and log analysis in cyber security. Additionally, I participated in system and network installations, and also contributed to the support team

- I took part in **ELK Stack** installation and management
- I took a role in the field of **log analysis**
- I worked on switch and firewall configurations for various customers

EDUCATION

2021 — 2024	Management Information System, Anadolu University
	Overall GPA: 2.96/4.0
2019 — 2021	Computer Programming, Mehmet Akif Ersoy University
	It has been completed with a degree. Overall GPA: 3.51/4.0

SKILLS	Asp .Net Core	Skillful	ASP.NET MVC	Skillful
	Entity Framework	Skillful	SQL Server	Skillful
	Git	Skillful	Autofac	Skillful
	JWT	Skillful	Design Patterns	Skillful
	Docker	Skillful	Aspect Oriented Programming	Skillful
	Linux	Skillful	Serilog	Skillful
	React	Skillful	Fluent Validation	Skillful

LANGUAGES	Turkish	Native speaker	English	B2
-----------	---------	----------------	---------	----

COURSES

2025	Asp.Net Core Security, Udemy
2022	Version Controls: Git and GitHub, BTK AKADEMI
2023	Information Security Management and Governance, Bogazici-University
2021	Ila-sy-rh-1011 Linux Basic Education, Istanbul Technical-University
2020	Cisco Certified Network Associate Routing & Switching-Essentials 1-2-3,, Cisco
2021	Cisco Cyber security Operation Center Associate, Cisco
2022	Python Programming Language in Business Life, LKD
2023	Log Management and Analysis with Graylog, LKD
